-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. Claims 1-6 and 8-10 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected group and species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 11/10/2008.
2. Applicant's election with traverse of groups and species in the reply filed on 11/10/2008 is acknowledged. The traversal is on the ground(s) that do not lack a special technical feature. This is not found persuasive because the claims do lack a special technical feature as evidenced by the rejection below.

The requirement is still deemed proper and is therefore made FINAL.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:  
  
(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.
4. Claims 7 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Boulos (5391239).

Boulos discloses a coating on aluminum that comprises treatment of aluminum with hydrofluoric acid and alkali metal fluorides (col. 4, lines 45-68) and potassium ions with hexafluoraluminate (col. 2, lines 39-68).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to select the components of the coating from the list disclosed by

Boulos since Boulos suggests that they may all be used in the coating and since Boulos suggests that more than one component may be used.

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 11 recites the limitation "alkali metal fluoride". There is insufficient antecedent basis for this limitation in the claim. Claim 7 contains no reference that the fluoride compound include any alkali metal.
